PIONEER PUMPING PLANT IS STARTED

AMPLE WATER SUPPLY IS ASSURED AND MILL IS AGAIN IN OPERATION.

Word was received today from William J. Tobin, president and general manager of the Pioneer Consolidated Mines company, that the new pumping plant, together with the mill and mine, were started operating and that all are working in the best of shape. The pumping plant is situated at springs that are owned by the company, about two miles from the mine, where there is an ample supply of water to supply a mill of several times the present capacity, as well as to furnish a supply for the entire camp.

The pipe line, which was completed before the arrival of the pumping equipment, is of the best steel pipe and, throughout its entire length it is laid at least 18 inches under the surface, insuring it against freezing. The water supply afforded by the present equipment will be ample for all requirements of the mill and mine as now operated and in the event that it is decided to increase the capacity of the mill the water supply can be augmented by simply increasing the engine power that operates the pump.—Goldfield Tribune.

MORE SNOW NEEDED BY THE SHEEPMEN

CRITICAL CONDITION OF THOUSANDS OF SHEEP ON WAY TO WINTER FEEDING PASTURE.

Henry Wedekind of Newark valley, who has recently been employed by Handley Brothers in moving their sheep south to the winter feeding grounds, was in Eureka Friday. He says the continued fair weather, with little or no snow, is proving most unwelcome to many sheep owners, and especially to those sheepmen from Idaho and Elko county who depend entirely upon a sufficient amount of snow on the white sage deserts in Nye county to furnish water for their flocks.

Mr. Wedekind is just back from a trip from the Warm Springs in Newark valley to Pogue's place in Nye county, and he says that in that 40 miles of country there are now about 150,000 head of sheep. The most of these sheep have been driven in from Idaho and Elko county, and with little or no water, and no snow, the stock is already suffering. There is plenty of feed this winter, the white sage being unusually abundant, but the lack of snow has put all these thousands of sheep in a critical situation, and unless there is a sufficient fall of snow very soon he predicts there will be heavy losses.—Eureka Sentinel.

AMUSEMENTS

BUTLER THEATER.

One of the very best programs ever shown in this popular place of amusement will be seen at the Butler this evening, as follows: Pathe Weekly of Current Events; "A Proposal from Nobody," being the fourth number of "Who Will Marry Mary?" and a two-reel Vitagraph comedy, "The Pirates." The board of directors of a biscuit company have themselves kidnapped for the advertising that will result. A young sloop captain, fascinated by the daughter of one director, accomplishes the job. A fight on the yacht, a chase by a revenue cutter, a suddenly enveloping fog—and John Bunyan in the midst of it all. Whew! What action! Sunday, "Motion Picture Dancing Lessons," in three reels.—Adv.
